

WHAT IS CLAIMED IS:

1. A preportioning bag used in food operations wherein a bulk food supply is divided into portions of smaller size, individual portions are located in a bag, and the bag is stored for use at a later date, said bag defining exposed side walls, and printing on at least one side wall, said printing comprising at least several days of the week.
2. A bag according to claim 1 wherein all seven days of the week are printed on the bag.
3. A bag according to claim 1 wherein the days are printed in at least two languages.
4. A bag according to claim 1 wherein a plurality of separate printed blocks are defined on the bag, each day being printed within a separate block.
5. A system for utilizing a food preportioning bag as defined in claim 1 including a saddle, a plurality of bags supported on the saddle, each bag being connected by means of a perforation whereby the bags can be torn away one-at-a-time from the saddle.
